“Prioritizing User Satisfaction with Honesty” The “PUSH”

1. Company Profile

The Farm Machinery Corporation Limited (FMCL) was incorporated as a 100% state owned enterprise (SoE) on 29th March, 2016 under the company Act of kingdom of Bhutan 2000, vide Lhengye Zhungtshogs directives vide letter no-c-3/96/219 dated 4th March 2016 and subsequent approval note from Ministry of Finance (MoF) vide letter No. MoF/PED/FMHS/2016/3347 dated 18th March 2016.

1.1 Vision

Making Farming into profitable and attractive livelihood enterprise that is socioeconomically and environmentally sustainable.

1.2 Mission

Endeavour to transform farming activity through mechanization into a vibrant and sustainable economic venture.

1.2 Mandates

FMCL is mandated to provide Farming Mechanization goods and services to the Bhutanese farming community at an affordable price with the following objectives:

1. Hiring of Farm Machinery to farmers and other stake holders throughout the country.
2. Sales of farm Machinery, implements and spare parts.
3. Repair and maintenance of farm machinery.
4. Fabricate farm machinery, implements and spare parts.
5. Sales of POL, Lubricants and others.
6. Contract and commercial farming.

2.1 Non- Financial achievement

In today’s world, agriculture have been playing crucial role for survival. The idea of food security is essentially paramount, and thus the agriculture has been a significance in the county. Ensuring that agricultural and food production is sustainable, the primary mandate ‘Hiring services’ have contributed as an increasingly important role for not only on environmentally sustainable in agricultural production but also have more efficient in growing crops for the company as well as for the citizen.

The mechanization of agricultural production is constantly renewing itself, depending on the time with the development of technology. For this purpose, it is necessary to make determinations periodically for the current situation of the mechanization development in an agricultural area. Considering in this dynamic scenario the Farm machinery corporation limited have been serving its communities of Bhutan for the easing accessibility of the machine and relevant services of the agriculture. As a result the company mandate have the correlation within as well as to the outsider as shown in below

2.1.1 Hiring services

Over the last few year, FMCL have exert to fulfil its economic and social benefit through hiring services with the government support. The company have received 933 units of farm machinery, covering 81,471.55 acres through hiring services, benefiting 46,614 household as of year 2020.

This services are split into two module viz central hiring and Geog hiring. The central hiring service module is catered by four Regional Centres with fleet of farm machines available with Regional Centres operated by Hiring coordinators, Technicians and Operators. The Geog hiring service module is provided either by Geog Dzongkhag focal person/PoL manager/Farm manager or by Geog power tiller operator appointed by FMCL. The service rate is being fixed by pricing committee of Ministry of Agriculture & Forests and around 50% subsidized rate are provided to end users by the Government in a form of subsidy injection to FMCL.

It is basically to enhance the accessibility of farm machineries to the farmers who cannot afford to own the machines and optimize land utilization and promote agriculture commercialization. With support from the Japan international Cooperation Agency (JICA) in supplies of farm machineries from the year 2016 till 2018 under hiring services, the agriculture production in rural place have been highly benefited. Based on this services, the annually contribution/acre coverage and its household benefit to the country are as shown in Fig 2;

2.1.2 Sale of machinery and spare parts

The hiring services as the primary mandate brings the remaining mandate into its respective roles and contribution to the agriculture sector. To reduce the drudgery in agriculture, the company sells basic farming tools to advance equipment/machines, inclusive of spare parts (import and domestic made) which are of standard and economically affordable.

In regard to the machine and spare parts, the company mostly procures from India, Japan, and Thailand. FMCL also tenders to private firms within the country for procurement of spare parts. The four regional centres and 23 Geog service centres are the main sales outlet of the company and the price of the items is kept same throughout the country based on pricing guideline.

Thus, the annual sales of agriculture machine as of year 2020 are shown in Fig 3:

2.1.3 Contract and commercial farming

The Farm Machinery Corporation Limited have a mandate of up scaling agriculture production through reviving of fallow land, land development for cultivation in the potential areas of Government Reserve Forest (GRF), RGoB land, institute registered land such as Dratshang land and private land. The purpose of taking up the mandate are;

1. To optimize land utilization, land intensification and promote agriculture commercialization through optimum use of farm machineries.
2. Promotion of winter cropping to reduce the import of vegetable.
3. To make attractive farming model, to take up by the youth to reduce un-employment problems & rural-urban migration.

With the strengthening of farm mechanization, the company have gradually taken some of the contract as well as given up base on the land feasibility and other factor in contributing to the self-sufficiency food of the country. The progress of acre cultivated under the contract and commercial farming mode are shown below:

2.1.3.A. Acre coverage under cultivation

The company has been implementing agriculture farming modes since the past four year as shown in fig 4, which consists of thirteen farm scattered across the country in year 2020.

Fundamentally the execution of the contract farming program immensely helped in the reduction of agriculture land approximately 1047 acres, out of 64,000 acres of fallow land. Which ultimately lead to the restructuring the concept of agriculture, to rejuvenate the potential for employment generation with improvement in contentment from socio-economic perspective.

So far the company under contract and commercial farming apart from the new project have covered 299.7 acre during the year 2020.

Sl.no	Category	Farm	Acre Coverage

2.1.3.B. Yeild achieved for year 2020

For decades, agriculture has been associated with the production of essential food crops. This culture have been conferred down to the generation as a survival habitual. Conversely in the year 2020 when Bhutan witness the pandemic, the company was assigned with the project known as ‘Economic Contingency Plan’ funded by the RGoB.

The Economic Contingency Plan was made with the objective of increasing productivity, reviving of fallow lands under crop production with trusted market access and to narrow the unemployment rates through farming activities.

Since 2016, Farm Machinery Corporation Limited (FMCL) is functioning as SOE, mandated to enhance farm mechanization and commercial production of agriculture commodities in leased large plots of land. To fill gap of nations need for a self-reliant in agricultural production and food security, FMCL will carry out production of prioritized commodities at a commercial scale and also work with farmers through a contract farming through funding source from Economic contingency plan (ECP).

Under the physical (Acres & Yield) achievement, the physical achievement of crops and cereals through Economic Contingency Plan (ECP) in the production are as followings:

Crop wise achievement, 2020.				
Sl.no	Crop wise	Acres coverage	Production (Metric tons)	Remarks
1	Paddy	202.19	88.5	Acres
2	Beans	26.21	3.3	Acres
3	Chilli	2.76	0.3	Acres
4	Maize	3.25	0.2	Acres
5	Tomato	38.00	1.1	Green House

2.1.3.C. Land Development

In agriculture sector the feasibility of land for the crop have to rationalize considering numerous factors. Furthermore in the view of the Ministry of Agriculture & Forests the minister have identified the Agriculture Land Development (ALD) as one of the priority programs basically to enhance the effective use of land and crop productivity through farm mechanization, fallow land reversion and reduction in soil erosion.

In the view of forgoing FMCL have been initiating additional support to the agriculture sector in terms of developing and reviving of fallow land for various crop productions. This activity has been undertaking as an ad-hoc activity based on the instruction received from Government through the Ministry of Agriculture and Forests. So far FMCL have revived and developed area measuring to 897 acres as of 2019. The company has been dealing with this program exclusively related to the crop production /agriculture orientated. The total land development executed is a total of 50 acres being put into crop cultivation under Phaithang, Trongsa. which is developed as organic farm.

2.1.4 Production Unit

The company took the mandate of production/fabrication of machine and spare parts in order to have it readily available as and when demanded by clients at small scale. Small machines applicable to Bhutanese farming condition is also fabricated and sold to farmers. Presently, the Section is regulated with few skilled technical staffs and TTI graduates. The direct cost like cost of raw materials is procured from India and some parts are tendered out to private firms. The products that are manufactured are directly transferred to FMCL main sales store while the revenue is realized as income for the manufacturing unit. Some of the spare parts fabricated by the production unit in 2020 with the available raw material are illustrate below:

Sn	Product	Rate	Quantity
1	Rotary Blade Kubota	7370	50
2	Rotary Blade Yanmar	7045	38

2.3 Marketing

Marketing section plays an important role in the organisation where they promote and drive sales of products and services. For the year 2020, following activities were carried out despite pandemic situation:

1. Demonstration: As per the requirement of new product and customer, marketing section carried out demonstration to clients, FMCL staff and others.
2. Participation in sales campaign: Just before COVID, marketing section could participate in Southern Food hill program along with regional office. This was an opportunity to showcase our product, company and also sell our farm produce.
3. Designing and distribution of catalogues: to reach out more customers, we carried out distribution of FMCL farm machineries and equipment's catalogue to all the potential institutes, regional offices and customers.
4. Mushroom Project: under the concept of studying and creating an entrepreneur, Oyster mushroom project was taken up and assigned. From start till marketing of the finished goods, the project was complete package and the focal had to meet her expenditure and salary from the revenue. However, after meeting just the expenditure the project lost the structure to fire accident.
5. Facilitating sales of farm produce and machineries: to facilitate sales of farm produce and machineries, marketing section was responsible for value addition of farm produce, search market, linking with potential customers, linking with potential suppliers, study of new product and getting it to the customers.

2.4 Human Resources

The Human Resources statistic of the company over the years are as presented below:

Fig 16: Human resource till year 2020

Source: Human resource department

Since its inception in 2016, FMCL was entrusted under the leadership of Mr. Karma Thinley, the incumbent Chief Executive Officer. The company running its 5th year of operation by now headed by the CEO is focusing more on initiating various policies and strengthening the mandates. The Management is also coming up with better and effective plans to shape Human Resources within the company. Today, FMCL is manned by 266 employees consisting of employees on contract, regular and elementary service Personnel. The company started its first operation with 46 staffs and steadily increased for two consecutive years 2017-2018 because of the development of several commercial Farms and establishment of 48 PoL services spread out across the gewogs. However, Human resources declined for the year 2019 to 2020 due to closure of the most of the PoL services owing to economic viability and two years contract completion of Staffs recruited through Direct Employment Scheme (DES) of Ministry of labour & Human Resource.

Subsequently, the Farm Machinery Corporation Limited employees, those who have received technical training and know how knowledge of respective employees are been implement not only within the company but also to the outside as a corporate social responsibility. Thus some of the support provided during the year are as follows:

5.1 Annual compact

As per the Corporate governance guideline mention under ‘the part IV the board, annual performance compact’ signing of the compact has been an annual important event for the company since its establishment in year 2016. It has immensely helped in rating the performance of the individuals in the delivery of services to the farming communities across the country. Since then, management ensured to signed individual compacts although not formalized until year 2020 between the Board, CEO and Ministry of Finance.

The Annual Performance Compact consisted of financial and Non-financial indicator with 50% respectively. Further, the Non-financial indicator was cascaded to Core actives (35%) and organization Management /Corporate governance with the (15%). Along with the activities agreed in the compact, each individual activity has its own key performance indicator with the risk associated to cover the external/ uncontrollable forces. For the past three years, the company has been consistently improving in terms of the performance from 65% in year 2018 to 76.85% in year 2019 and 89% in year 2020 despite of all the odds and constraints confronted during the implementation period.

In due course of executing the activities planned and proposed for the year 2020, the country was declared national lock down affecting most of the activities. The major activities were kept on halt for at least two months. However, measures and alternatives were placed in all regional offices and farms to ensure the continuity of the planned activities considering profound COVID protocols. The staffs were quarantined in the office premises and made to execute various activities in the interest of farming communities. One such initiative was rescuing rotting of huge green chili measuring to at least 20 MT collected from the farmers of Paro Dzongkhag. Similar initiatives were carried out from the regional offices, service centres and farms established across the country.

“Prioritizing User Satisfaction with Honesty” The “PUSH”

6.1. Creation of Employment Opportunities

As the world was hit hard by COVID-19 Pandemic from late 2019, Service sector was the worst affected amongst which tourism service was at total standstill around the globe and Bhutan's tourism business too was inevitable.

Our company was directed to increase the vegetable production with development of commercial farms under School and Hospital Feeding program (SHFP). Under the SHFP, we could provide employment opportunities to around **10 laid off tourist guides** at the daily wage rate of Nu. 620/- (Six Hundred and twenty only). They were also provided with opportunity to continue working with the company at the given wage rate or can leave for better opportunity if an individual is blessed with.

Further, we also provided technical support/advice for numerous groups and individuals laid off employees who were taking up vegetable farming. We remain committed for providing such support if approached in coming days too.

6.2. Mega Green House

The design and construction of mega green house was initiated base for mass production of crops. Fundamentally, the greenhouse were designed for the protection of tender or off season plants against excessive cold or heat. Especially large greenhouses were important in agriculture and horticulture. Therefore, the company designed and constructed the mega green house by FMCL in Bhutan probably for the first time. The mega greenhouse is designed and constructed mainly for mass production of

The concept of mega greenhouse appeared when FMCL planned to produce mass production of vegetables to substitute imports from other countries, as normal greenhouses constructed in Bhutan have constraints like minimal spacing for use of farm machineries, multiple structures has to be constructed at one field and farm workers have to move from one structure to another.

So a trail mega greenhouse was constructed at Norzinthang Farm, Tashigang in October, 2020.

Beside Norzingthang mega greenhouse a new mega greenhouse were designed and modified at Bajo, Wangduephodrang. The mega greenhouse were constructed in a prototype of other mega greenhouse to be kept as a sample for future reference if demand.

6.3. Phaitang Farms Contribution during the Lock Down

With the announcement of first National Lock down in the country on 10th August, 2020, the staffs of commercial farms continued to work on various agriculture activities in their respective confined area. The strict protocols on the COVID were made to practice daily. The entry of public was strictly prohibited from visiting the farm.

However, as a social corporative responsibility, the management of Phaitang commercial farm under Trongsa Dzongkhag has supported the Dzongkhag Task Force Member with following activities:

1. The Excavator machine from Phaitang was deployed to various farm roads under the Nubi geog to ensure smooth transportation of essential goods. The most of the farm roads were damaged with heavy rainfall.
The geog connectivity road of Nubi geog connecting to Simphu, Kaba, Daba and Bemji- 17 km (200 households benefited), Bji Zam to Bji Trong – 4 km (24 households benefited) and Bji Paam – 3 km (20 Households benefited) farm roads were some of the roads maintained under the initiative of Phaitang farm.
2. Single cabin bolero and farm tractor was deployed to reach essential goods to every nock and corner of Nubi geog to support the Dzongkhag Task Force Member in a little manner we could in the service of farming communities.
3. The farm was in the process of developing into terraces during the announcement of lock down. However, the farm initiated to grow beans and chili in the open field and tomato under protective structure to supplement to the market with whatever quantity we could manage with the newly developed land. Following are the quantity produced during the lock down and made available to Trongsa Dzongkhag.
 - Beans – 579 kg
 - Tomato –1328 kg
 - Chili – 169 kg
 - Water melon – 49 kg

The labor payment for the labour deployed during the development of commercial farm was made available with the farmers during the lock down through M-BOB. Little more than 0.5 million was disbursed during the lock down period which has immensely helped them to buy essential goods and services during the lock down.

6.4. Dry Chilli Processing

On August 10th 2020 Bhutan was declared as national lockdown for 21 days due to the outbreak of community transmission that has not only been the threat to the health but for the economic and business growth of the country. As a result of the outbreak, the government have impose movement restriction which hampered the company revenue generation as the services were being halt.

During the period FMCL have initiated to work alongside with the Centenary Farmers Market in chilli processing as an ad hoe activity to process the surplus chilli available from farmers of Paro and those delivered by CFM. In the course of the procedure the head quarter and the Paro regional office employees came to the conclusion to be office quarantine during the national lockdown for the chilli processing lead by COVID focal person in collaboration with marketing section

7.1 Project Summary

The Project “Strengthening Farm Mechanization Project Phase 2 (SFaMP2)”, was planned as of August 2014 to August 2017. However the actual project have been extended for one year by considering the separation of organization into two; Agriculture machinery centre and Farm Machinery Corporation limited.

In consideration of the agriculture production contribution to the country in Gross domestic product, progress has been steadily low due to the steep geographic terrain. Beside the sturdy process on agriculture, the rural and urban migration have been challenges in enhancing the farming.

In consequence the Royal Government of Bhutan (RGoB) in collaboration with Japan international Cooperation Agency (JICA) have implemented “Strengthening Farm Mechanization Project” aiming the strengthening the capacity of AMC and FMCL towards sustainable farm mechanization. In overall the goal and purpose of the project was to let farmer have the better access to appropriated farm machinery in the sites.

The project have 4 outputs to be monitored and headed by the Project Management Unit (PMU) with the assist from the Project Coordination Working Group (PCWG) for updating the progress of activities. Out of 4 outputs “hiring services module” has been carried out by the Farm Machinery Corporation Limited.

The guidance and assistance received from the JICA has helped enhancing the project and upgrading hiring services as illustrated below:

7.1.1 General support

Sn	Support	Division
1	Project hired an IT consulting firm on the development of online database system in 2016.	Stores
2	Japanese part catalogue have been translated into English and shared with the company	Stores
3	Short term expert dispatch (Die mould making and production management)	Production Unit
4	Technical advices by the long term Japanese expert on repairing farm machineries	Repair and maintenance

7.2 Japanese General Grand Aid

Correspondingly in the year 2015, Geog hiring services was commenced in 70 Geogs in the eastern Bhutan which later improved as the project activity. This program was initiated by the MoAF and further received 887 units of power tiller including machine purchase by RGoB fund and 353 units of SAIM KUBOTA power tiller provided by the Japanese General Grand Aid.

This distribution was initially received by AMC and was later on transfer to FMCL. Fundamentally the machine received are all distributed to the Geogs on enhancing the accessibility of farm machines to the farmers monitored by the Dzongkhag Focal Person/Farm Manger/PoL Manager controlled from regional as exhibited below:

Geog power tiller distribution

Sn	Region	1 supply (2015)	2 supply (2016)	3 supply (2017)	4 supply (2018)	Total

INDEPENDENT AUDITORS' REPORT

To,
The Shareholders
Farm Machinery Corporation Limited
Paro, Bhutan.

Report on the Audit of Financial Statements

Opinion

We have audited the financial statements of Firm Machinery Corporation Limited ("the Company"), which comprise the Statement of Financial Position as at December 31, 2020, and the Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flow for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects of the financial position of the Company as at December 31, 2020 and of its financial performance and its cash flows for the year then ended in accordance with applicable Bhutanese Accounting Standards for Small and Medium Enterprises (BAS for SMEs).

Basis for Opinion

We conducted our audit in accordance with the International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our Report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Bhutan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matters

We draw attention to Statement of Comprehensive Income which presents net loss of Nu. 12,731,851.61 for the year ended 31 December 2020 as against Nu. 4,182,550.31 for the previous year. As disclosed in notes to account 17, the loss of Nu 4.602 million was on account of POL stations surrendered to the gewogs and balance being the operational loss.

Our opinion is not modified in respect of this matter.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The management is responsible for the preparation and fair representation of the financial statements in accordance with the BAS for SMEs and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related

ལྷོ་ནུམ་འབྲུལ་ཚམ་ལམ་འཛིན་ཚང་།

Farm Machinery Corporation Limited

PARO BONDEY: BHUTAN

Post Box No: 1314

"Prioritizing User Satisfaction with Honesty" The "PUSH"

to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with International Standards on Auditing and terms of reference for audit, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them

ལྷོ་ནུབ་འདུལ་ཚམ་ལས་འཛིན་ཚད།

Post Box No: 1314

"Prioritizing User Satisfaction with Honesty" The "PUSH"

all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

As required by Section 266 of the Act (the Minimum Audit Examination and Reporting Requirements), we enclose in the Annexure a statement on the matters specified therein to the extent applicable.

As required by section 265 of the Act, we report that:

- We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.
- In our opinion proper books of account as required by law have been kept by the Company in so far as it appears from our examination of those books.
- The Statement of Financial Position, the Statement of Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this report are in agreement with the books of account.
- In our opinion, the Company has complied with other legal and regulatory requirements.

ANNEXURE A

MINIMUM AUDIT EXAMINATION AND REPORTING REQUIREMENTS

(To the Extent Applicable)

As required under the "Minimum Audit Examination and Reporting Requirements" referred to in Section 266 of The Companies Act of Bhutan, 2016 and on the basis of such checks as we considered appropriate and according to the information and explanations given to us, we report as follows:

General:

- a) During the course of audit, we have not come across any instance of violation by the Company of the Corporate Governance Guidelines and Regulations.
- b) Generally, the governing board/authority pursued a prudent and sound financial management practice in managing the affairs of the company.
- c) The financial statements are prepared applying the Bhutanese Accounting Standards issued by the Accounting and Auditing Standards Board of Bhutan (AASBB).
- d) Proper books of accounts have been maintained and financial statements are in agreement with the underlying accounting records.
- e) Adequate records as specified under Section 228 of the Companies Act of Bhutan 2016 have been maintained.
- f) We have not come across any non-compliance of mandatory obligations social or otherwise, that have been entrusted to the Company.
- g) Amount of tax has been computed correctly and reflected in the financial statements for the FY 2020.

In the case of a manufacturing, mining or processing company:

1. The Company has been maintaining proper records showing particulars including quantitative details and situation of the fixed assets. As explained to us, all the fixed assets have been physically verified. Therefore, discrepancies as such could not be identified on our examination.
2. The fixed assets of the Company have not been revalued during the year.
3. The Physical verifications were conducted at reasonable intervals in respect of finished goods, stores, spares parts and raw materials. On examination, the management of the Company had taken the responsibility in forming the appropriate compact and included the responsibility of the person to verify the finished goods, stores, spares parts and raw materials and discrepancy if any has been adjusted in the books of accounts.
4. In our opinion and according to information and explanation given to us, the procedures of physical verification of stocks followed by the management are reasonable and adequate in relation to the size of the company and the nature of its business. No, such inadequacies in such procedures were found doing the audit.

5. No, discrepancies have been noticed on physical verification of stocks as compared to the book records. As per the prevailing practice, adjustments of such discrepancies if any have been adjusted in the books of accounts.
6. The company has a reasonable system of recording receipts, issues and consumption of materials and stores and allocating materials consumed to the respective jobs, commensurate with its size and nature of its business.
7. The quantitative reconciliation is carried out at the end of the accounting year in respect of all major items of inventories, i.e. finished goods, raw materials. Except for POL inventories
8. The obsolete, damaged, slow moving and surplus inventories has been determined during the internal verification by the internal audit and other appropriate teams member of the company and the value of dead stock is determined as 20329359.15 and the provision for same is been recorded at Nu. 20,329,359.15 In the books.
9. No obsolete and surplus inventories are disposed off and proceeds from such disposals are accounted appropriately with the discussion with the management. On the further discussion with the management, management had discussed and decided to submit the dead stock report to the Regional Revenue & Customs Office (RRCO) and to take further course of action.
10. According to the information and explanations given to us, the Company has a system of obtaining approval of the Board/ appropriate authority for writing off amounts due to material loss/ discrepancies in physical/book balances of stores and spares.
11. As per the examination and information provided by the management about the inventories, including the finished goods, raw materials, work in progress and stores and consumables is appropriate in accordance with generally accounting principal. The method adopted in the previous year was followed during the year
12. The Company has not granted any loan. Hence prejudice in interest and other terms and conditions of the loan etc. are not applicable.
13. The Company has not granted any loans, secured or unsecured, to other companies, firms, or other parties during the year under our review, except advances granted to suppliers of raw materials in the normal course of business and to the officers/employees of the Company.
14. Advances granted to officers/staff are generally adjusted in keeping with the provisions of service rules and no excessive/ frequent advances are granted and there is no accumulation of large advances against any particular individual.
15. The company has established adequate system of internal controls to ensure completeness, accuracy and reliability of accounting records, carrying out the business in an orderly and efficient manner, to safeguard the assets of the company as well as to ensure adherence to the rules/regulations and system and procedures.

"Prioritizing User Satisfaction with Honesty" The "PUSH"

16. There is a reasonable system of authorization at proper levels in respect of issue of stores and allocation of materials and labour to jobs wherever applicable. There is systematic procedure on issue of stores and allocation of materials and labour to jobs.
17. On the examination, there is a system of competitive biddings, commensurate with the size of the company and the nature of its business, for the purchase of goods and services including stores, raw materials, plant and machinery, equipment and other assets, and for the sale of goods and services except for international transactions where MOU are in place.
18. (a) On the examination, the procurement and sales division have their own procedure to be followed. No such involvement of directors are been recorded nor found any other party/parties related to the director(s) or with company or firms in which the director(s) are directly or indirectly interested have been made at prices, which are unreasonable having regard to the prevailing market prices for such goods or services or at prices at which the transactions for similar goods or services have been made with other parties are recorded.

(b) Our examination reveals that, no transactions entered into by the company wherein the directors are directly or indirectly interested are prejudicial to the interest of the other shareholders and the company
19. According to the information and explanations given to us, and on the basis of our checking of the accounts and other books and records, to the best of our knowledge, no personal expenses have been debited to the Statement of Comprehensive Income.
20. As explained to us, unserviceable, damaged stores and finished goods items are determined and verified by a committee and on their recommendations; provisions have been made generally in the accounts periodically with the approval of Competent Authority.
21. There is a reasonable system of ascertaining and identifying point of occurrence of breakage/damages raw materials, packaging materials and finished products i.e. while in transit, during processing, during loading/ unloading, in storage and during handling etc. so that responsibility could be fixed and compensation sought from those responsible but if in case the disaster happens by the unforeseen circumstances, no disaster recovery plan such as insurance of the raw material, packing material and finished products to get in the regular operations.
22. As informed, the company is maintaining reasonable records for production of finished goods, by-products and they have maintained the adequate physical safeguards exist to prevent unauthorized or irregular movement of goods from the company.
23. As per information and explanations given to us and on our verification The Company is maintaining reasonable records for sales and disposal of realizable by-products and scraps which are applicable.
24. The company is regular in depositing rates and taxes, duties, royalties, provident funds, and other statutory dues with the appropriate authority. The provision for corporate tax is adequate and that necessary adjustments have been made to compute amount of tax

“Prioritizing User Satisfaction with Honesty” The “PUSH”

as per the prevailing tax laws, rules and regulations of Bhutan. *Except payment of TDS on Bhutanese contract*

25. As per the records made available to us, there was undisputed amount payable in respect of rates, taxes, provident funds and other statutory dues, which are outstanding as on the last day of the financial year.

SI No	Nature of due	Amount
1	TDS on Bhutanese contact	559,074.14

26. The Company has a reasonable system of allocating man-hours utilized to the respective jobs, commensurate with the size and nature of its business. The company have work plan for the individual and have compact rules 2019 to be followed by the individual possible.
27. There is a reasonable system of price fixation taking into account the cost of production and market conditions. *However it needs to be further strengthen to incorporate all Fixed Production Overhead*
28. As per the Explanations made to us the company doesn't allow credit to parties.
39. All sales are made directly by the Company and no commission agent has been engaged by the Company.
30. In our opinion, there is a reasonable system for continuous follow-up with debtors and other parties for recovery of outstanding amounts. Also, age-wise analysis of outstanding amounts is carried out for management information and follow-up action.
31. We noted that the management of liquid resources particularly cash/bank and short term deposits etc. have been adequate considering the present suitability.
32. In our opinion and to the extent our examination reveals, the business activities carried out by the Company are lawful and intra-vires to its Articles of Incorporation of the Company.
33. In our opinion and according to the information and explanations given to us, the Company has a system of approval of the Board for all capital investment decision.
34. The Company has a formal budgetary control system which requires to be strengthened.
35. *Standard costing system and variance analysis based on the standard costing system is yet to be introduced.*
36. The remuneration paid to the Managing Director consisting of sitting fees and other benefits paid to the Managing Director is disclosed in Note No. 2 of Notes on Accounts. Since our checking is restricted to Board Minutes, and while checking the said Board Minutes, we have not come across any cases of disclosure of interest where payments

"Prioritizing User Satisfaction with Honesty" The "PUSH"

have been made in cash or in kind to any of the Director's relatives (including spouse(s) and child/children) by the Company directly or indirectly.

37. To the best of our knowledge we have not come across any instance of the directives of the Board that has not been complied with.
38. On the basis of information received from the Management, and on the basis of our verification of records and documents, price sensitive information, to the best of our knowledge, have not been transmitted by any officer of the Company, to any other person with the intent to benefit themselves.
39. Necessary records are being maintained for inter unit transactions/services and arrangements for services made with other agencies engaged in similar activities.
40. There are no machinery/equipment that have been acquired on lease or leased out to others.

COMPUTARIZED ACCOUNTING ENVIRONMENT:

1. The Company uses tally software, Tally ERP 9.
2. Backup of data in separate drive is being kept under the custody of the IT Manager.
3. The Company is yet to introduce the system of back-up facilities and disaster recovery measures including keeping files in different and remote locations.
4. In our opinion and according to the information and explanations given to us, the operational controls require further improvement to ensure correctness and validity of input data and output information.
5. In our opinion and according to the information and explanations given to us, the measures taken by the Company to prevent unauthorized access over the computer installations and files are adequate.

GENERAL

1.Going Concern:

The Company's present operational and financial data indicates that the Company is financially healthy and we have no reason to believe that the Company is not a going concern entity. Accordingly, the financial statements have been prepared on the going concern assumption.

2.Ratio analysis:

Refer to Annexure - 1

3.Compliance with the Companies Act of Bhutan, 2016

Accounting Policies:

1. Reporting Entity

The principal activities of Farm Machinery Corporation Limited (the "Company" or "FMCL.") cover all significant operations that have taken place in Bhutan and the Zonal Offices in four Dzongkhag Paro, Wangdue, Sarpang and Trashigang. The Company is incorporated as wholly Owned Company of Royal Government of Bhutan on 29th March 2016 under the Companies Act of Kingdom of Bhutan; 2016. These financial statements relate to the year ended 31 December 2020.

2. Basis of preparation

The financial statements of the Company have been prepared in accordance with Bhutanese Accounting Standards. The statements have been prepared under the accrual, historical cost and going concern conventions.

The preparation of financial statements in conformity with BAS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are:

- 1 Fixed assets: critical judgments are expected period of use, condition of the asset, technological advances, regulation, and residual values.
- 2 Actuarial valuation of employee benefits: expected uptake of the gratuities and the discount rate used in the valuation. The functional currency of preparation is in Bhutanese Ngultrum.

3. Application of Bhutanese Accounting Standards

The Financial Statements have been prepared in line with Bhutanese Accounting Standards. The summarized impact of the introduction of BAS is:

- a) The company has presented Statements of Comprehensive Income and Changes in Equity as required by BAS 1. These statements show information that was previously disclosed in the schedules to the financial statements. Generally the disclosure norms adopted by the company is as per function which is in confirmation with group accounting policies.
- b) Depreciation has been calculated using an assumed useful life of Fixed Assets including additions during the year using the rates applicable as per BAS 16.
- c) Employee retirement benefits are valued on an actuarial basis which reflects the estimated liability at balance sheet date.

Post Box No: 1314

“Prioritizing User Satisfaction with Honesty” The “PUSH”

4. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who are responsible for allocating resources and assessing performance of the operating segments has been identified as the Board of Directors.

5. Foreign currency translation

a) Foreign currency transactions that are completed within the accounting period are translated into Bhutan Ngultrum using the exchange rates prevailing at the date of settlement. Monetary assets and liabilities in foreign currencies at balance sheet date are translated at the rates of exchange ruling at balance sheet date.

b) Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the Statement of Income.

6. Property, plant and equipment

All property, plant and equipment is stated at historical cost less depreciation and impairment, if any. Costs includes purchase price, taxes and duties, labour cost, direct financing costs, direct overheads for self-constructed assets, borrowing costs, other direct costs incurred up to the date the asset is ready for its intended use including initial estimate of dismantling and site restoration cost. Subsequent costs are included in the assets carrying amount of assets or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

a) Land is not depreciated. Depreciation on other Assets has been calculated using an assumed useful life of Fixed Assets including additions during the year using the rates applicable as per BAS 16. Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognized within “Other Income” or “Other expenses” as the case may be, in the income statement.

Accounting Policy followed for useful life

Sl.no	Item	Life
1	Vehicle & Vessels	15

PARO BONDEY: BHUTAN

Post Box No: 1314

"Prioritizing User Satisfaction with Honesty" The "PUSH"

7. Intangible assets

- a) Costs associated with maintaining computer software programmer are recognized as an expense incurred.
- b) The Company does not recognize the internally generated technical knowhow and hence recognition criteria and amortization policy is not defined by the entity.

8. Receivables and advances.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets. The group's loans and receivables comprise "loans to customers", "trade and other receivables" and "cash & cash equivalents" in the Statement of Financial Position (notes: 5, 3).

9. Inventories

Inventories are stated at cost or net realizable value whichever is lower. Costs are determined using the weighted average method. The cost of finished goods and work in progress comprises design costs, raw materials, direct labour, other direct costs and related production overheads (based on normal operating capacity).

10. Trade and other receivables

Trade and other receivables are initially recognized at the fair value of the amounts to be received. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets. Receivables are reviewed regularly for impairment.

Cash and cash equivalents

In the Statement of Cash Flows, cash and cash equivalents includes cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

11. Trade and other payables

Trade and other payables are initially recognized at the fair value of the amounts to be paid. Accounts payable are classified as current liabilities if payments are due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

12. Current and deferred income tax

The tax expense for the period comprises current and deferred tax. Tax is recognized in the income statement, except to the extent that it relates to items recognized in Other Comprehensive Income and in this case, the tax is also recognized in other comprehensive

Post Box No: 1314

"Prioritizing User Satisfaction with Honesty" The "PUSH"

income. The current income tax charge is calculated on the basis of the tax laws enacted at the balance sheet date in Bhutan. Management periodically evaluates computation made in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions wherever appropriate on the basis of amounts expected to be paid to the tax authorities. Deferred income tax is recognized using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted at the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

13. Employee benefits

a. Retirement Benefits

Defined Contribution Scheme

Employees belong to a defined contribution benefit plan managed by a separate entity. The company has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees, the benefits relating to employee service in the current and prior periods.

Defined Benefit Scheme

The company makes retirement payments based on the final salary and years of service. The gratuity is accrued on the basis of actuarial valuation. Changes in service and interest are charged to the Profit and Loss Account. Changes to actuarial valuation are charged to the Statement of Comprehensive Income.

b. Other benefits

Other benefits such as leave encashment and bonus are accrued.

14. Revenue recognition

Revenue is measured at the amount entity expects to be entitled in exchange for transferring promised goods or services to a customer, and represents amounts receivable for goods supplied, stated net of discounts, returns and taxes and royalty collected on behalf of government. The Company recognizes revenue when the entity satisfies a performance obligation identified in the contract by transferring a promised goods or services to a customer and the amount of revenue can be reliably measured and it is probable that future economic benefits will flow to the group. An asset is assumed to be transferred to a customer when (or as) the customer obtains control of that asset. Incremental cost incurred by the company for obtaining as contract with customer is recognized as assets if the recovery of such cost is expected. Such assets are amortized on a systematic basis that is consistent with the transfer to the customer of the goods to which the asset relates.

15. Interest income

Interest income is recognized using the effective interest method. When a loan and receivable is impaired, the company reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument. Interest income on impaired loan and receivables is recognized using the original effective interest rate.

16. Comparative information

Where necessary certain comparative information has been reclassified in order to provide a more appropriate basis for comparison, comparative information has been updated to comply with the introduction of Bhutanese Accounting Standards.

Notes on Accounts:

- a) During the year the company has recognized revenue from POL of Nu.18, 851,262.6(inclusive of closing stock amounted to Nu.3, 151,858.00) against purchase of POL of Nu.13, 537,390.19 which is exclusive of employee cost.
- b) The company has generated revenue from contract farming of Nu.10, 829,371.9(inclusive of closing stock amounted to Nu.2, 347,488.00) in respect of which the company has incurred an expenditure of Nu. 4,909,967.36 (exclusive of employee cost) as crops plantation generating the profit amounted to Nu.5,919,404.9
- c) Inventory includes items worth Nu.77, 604,891.80 grants- in - kind received from AMC in the year 2017. Out of which the stock worth of Nu.13, 078,980.29 was sold in the year 2017 and before, Nu.15,339,047.48 in the year 2018, Nu.3,321,544.39 in the year 2019 and Nu.15,174,899.60 in the year 2020.
- d) The department of Macro Economic Affairs, Ministry of Finance verified and valued some of the assets at Nu.39, 122,197.60, transferred from AMC at the time of corporatization, whose purchase details and corresponding cost were available and accordingly incorporated in the books of account as on 31.12.18. Further, during the year 2020 the asset was depreciated by of Nu.3, 893,947.31.
- e) Due to non-availability of cost price and year of purchase and other specific details each items of other asset have been valued at Nu.1
- f) As per BAS 2: Inventories the management has measured the inventories at cost or net realizable value whichever is lower. *Detail shown in Annexure I*

MANAGEMENT REPORT

ལྷོ་ནུབ་འདུལ་ཚམ་ལས་འཛིན་ཚད།

Farm Machinery Corporation Limited

PARO BONDEY: BHUTAN

Post Box No: 1314

“Prioritizing User Satisfaction with Honesty” The “PUSH”

1. Non recovery of Trade Receivable (3.3.34)

As on reporting date sum of Nu 1, 919,852.50 was due from Ministry of Agriculture & Forest shown under trade receivables. This amount relates to supply of power tillers to gewogs during financial year 2017-2018.

As per the explanation and information provided to us management is regularly following up with the ministry, however due to short booking of budget same is not recovered up to the date of audit.

Management Response:

This amount pertains to the pending bills for the distribution of power tillers and mini tillers with accessories to various gewogs during the FY 2017-18. The total bills of Nu. 70.610 million Were submitted to Ministry of Agriculture & Forests (MoAF) and received payment amounting to Nu. 68.677 Million With remaining balance of Nu. 1.933 million Receivable from MoAF.

The follow up letter on the payment of balance amount with MoAF was sought repeatedly vide letter no: FMCL/Proc-20/2018/1250 dated 3rd April, 2018 and FMCL/Proc-20/2019/801 dated 20th may, 2019 respectively. However, the allocated budget for the payment of above machineries has provisioned about Nu. 68.677 And has completed the budget with Ministry during the fiscal year. There is no possibility from MoAF to meet the balance outstanding amount and has still left outstanding in FMCL books of account.

Therefore, by looking into the numbers of machineries supported to FMCL in terms of machines and generating the revenue, FMCL would like to seek write off approval from Board and take away the receivable amount from the FMCL books of account.

Further Comments of the Auditors:

As per the explanation provided, during the Board Meeting management may seek approvable from the board to write off the same from books of account, since the amount pertains to financial year 17-18 and it is confirmed that same will not be realized.

Who is accountable?

Direct (Name)	Accountability	Designation	CID
Mr. Kelzang Namgay		General Manager	11513001731
Supervisory (Name)	Accountability		
Mr. Karma Thinley		Chief Executive Officer	11503003616

2. Delay in deposit of utility Bills (2.1.22)

There were instances of no deposit of electricity dues on time at the regional level. Monthly budget were released on time by the Headquarter to regions.

Further it is the policies of headquarter to recover the penalties for delay payment from the employees responsible for making payment. However these penalties were not recovered during the period under audit.

Management Response:

The late payment in electricity bill is mainly due to consecutive lockdown during the year 2020 and the bills are not submitted on time by the BPC. The late submission of bills is incurred at Regional Office Khangma and Bajo. Moreover, Regional Accounts personnel in three Region Paro, Bajo and Khangma are being newly recruited in the year 2020 and they were not aware that such penalty must be recovered from individuals.

However, as per the observation shown the penalty amounted to Nu.1,559.17 will be recovered from concern individuals and further, in-order to avoid such lapses in future, the management will issue officer order and notification to all the Regional Managers and Regional Accountants to remit the bills on time and if there is any penalty being imposed due to late settlement of bills, the concerned should recover the penalty.

Further Comments of the Auditors:

In the view of measures taken and management intention to strictly adhere to their official order there is no further comment to offer

Who is accountable?

Direct Accountability (Name)	Designation	CID No.
Ms. Kinley Wangmo	Finance Officer	1050500367
Supervisory Accountability	Designation	CID No.
Mr. KelzangNamgay	General Manager	11513001731

Follow-up Report of 2017, 2018 and 2019 Audit report

Accounting Year	Total No. of recommendations provided	No. of recommendation implemented	No. of recommendation partially implemented	Balance recommendations to be implemented
2017	02	01	01	0
2018	07	07	0	0
2019	05	02	02	01

Detailed Follow-up Report for the year ended 31 December, 2017

Para No.	Observation in brief	Management's response- Current status	Status of compliance
1.	Internal Control	<ul style="list-style-type: none"> i. From year 2018 the FMCL has pass separate entries and maintained separate voucher for each regions. ii. Proposal put up to Secretary of MoF to wave up the tax for transfer ownership and the case is forwarded to RRCO. From 2021 the ownership is transferred to FMCL and blue book renewal completed. iii. From 2018 all the regional centres including HQ has maintained Fixed Asset Register. However it's not fully completed since final fixed asset list is still not finalized. iv. All the transaction is tracked and monitoring is done in timely basis by M & E officer. 	<p>Implemented</p> <p>Implemented</p> <p>Implemented</p> <p>Implemented</p>
2.	Transfer of Asset from AMC	<ul style="list-style-type: none"> i. The documentation for transfer of asset from AMC to FMCL and valuation has been completed ii. Not issued due to some issues. 	<p>Implemented</p> <p>Not Implemented</p>

Detailed Follow-up Report for the year ended 31st December, 2018

Para No.	Observation in brief	Management's response- Current status	Status of compliance
1.	Fixed Asset	Depreciation for fixed asset received from AMC has been calculated and incorporated in financial statement.	Implemented
2.	Capital Reserve	As per the recommendation from the statutory auditors the FMCL management has segregated the amount of stock sold from the inventories worth of Nu.77.17 million with the help of external experts. Accordingly the proportionate amount of grant utilized has been recognizing as revenue in financial statement for the year 2019. Disclosure made in notes to accounts.	Implemented
3.	Inventory	The management has segregated the dead stock and accordingly the provision for dead stock is made accordingly.	Implemented

Detailed Follow-up Report for the year ended 31st December, 2019

Para No.	Observation in brief	Management's response- Current status	Status of compliance
1.	Normal and abnormal loss	The treatment of normal and abnormal loss will be incorporated in audited financial statement for the year 2020 with the support from Statutory auditors.	Not Implemented
2.	POL station License Renewal	Out of 25 PoL station, license for 20 stations has been renewed and 5 stations has been cancelled since the loss is more than 20 Percent (%).	Implemented
3.	Unreconciled of POL Revenue	Only left with the case of two stations. However, the case was put up at Trongsa court for Korphu and at Bumthang court for Ura on dated 15 th and 16 th March, 2021 as per the resolution of Board.	In the process
4.	Accounting for Agriculture Produce and Biological Asset	The management has assigned account section for necessary treatment of Agriculture produce and Biological asset. As informed, it will be incorporated in 2020 financial statement with the advice and guidance from statutory auditors during 2020 audit.	Not Recommendable. Since none of the Biological assets are under the control of company
5.	General Observation Allocation of expenses	Management is still under process of segregating employee cost under separate activity since most of the employee in regional centers carry out multiple of activity at a same time. For instance, POL manager of Buli provides POL service, GPT service and R&M service to the customers. In such case it's very difficult to allocate employee cost under particular activity. However, the management is sourcing a way to segregate employee cost with the help of ICT.	In the process
